if you dont like reading there is a video at the end

This is a game about transporting goods over train tracks from one city to another, where upon arrival of the good you can choose the reap the money or gain victory points. the maps are 10 turns long and can support up to 5 players. The game is fun to play and has a decent ammount of dept but.... and this is a major but... 10 turns feels way to short, you are finally set up and the game is already over kinda short, not only that but you get only 2 MAPS for 10 dollar?! I am sorry but that is way to little for that asking price.

all in aal a decent game bnut the ammount of maps\length of the maps drags it down to not recommended, if they add more\longer maps then I would say go and buy it but if they add 5 dollars for every map then my review stands and that is, dont buy it

video: <https://www.youtube.com/watch?v=aUueucYiEhc>. Short yet nice holiday visual novel. very nice artwork :D. Fun to play when high. Fun combat.....But thats about it.. This is the best game that no one is playing. Gameplay is solid. action is relentless. combat is unforgiving. Figure it's like Top Gun. but better since A) there's no awkward bromance with Goose. b) your GF doesn't turn out to be a lesbian. It's only missing some epic karaokes.

FUN FACT: people giving this game a thumbs down are actually up-voting while inverted. 10/10 will refurbish MiG parts again!. I was sitting down at work about three days ago. thinking to myself "I just want a shooter that makes absolutely no sense. Something where you're flying around. shooting people and stuff"--This is the exact type of game I was thinking about. No body was playing when I was playing. but even just playing with bots was AMAZING. Love it. 7/10

Hope more people play and that's all I can say.. This is a great game. and it's very relaxing. especially to someone like me that suffers from generalized anxiety disorder. Sometimes, it's good to appreciate a game that you don't have time-limits. enemies. etc. and just have a fun time trying out new plants and fulfilling requests.

There are a few bugs within the game. thankfully nothing game-breaking. and the majority of these will most likely be fixed with patches in time.

Hopefully the Devs will expand this game or make other VR games, as this is a great example.

GAAAAAAHHHHHHHHHHHHHHHHHHHHH. Patience is a pretty boring game that you can play for free. This isn't even proper Patience, it's some bizarro American version. They added a cute environment, jokers and special cards but it's still a rather boring game. Go play Freecell instead. :P. Best Call of Duty game out there. A wonderful squeal to Black Ops 3. It deserves game of the year award.

10/10. Disappointing despite the graphical facelift. I guess I was expecting a little more than an exact replica of the original game.. good♥♥♥♥♥go!d♥♥♥♥♥that's ✓ some good?♥♥♥♥♥right?there right✓ there ✓ if i do say so my self ? i say so ?? thats what im talking about right there right there (chorus: ^right there) mMMMMMM?? ????? ????H00000000000Oooo oooooooooo?? ????? ? ? ? ? ? ? ? ? ?
