About This Game

This is a slightly different history to the world we know.
An anti-war visual novel parody set in 1930s Germany where you play Goepfels-chan, the Minister of Propaganda, and have to keep the Fuhrer happy.

This time, the Fuhrer has ordered the production of a propaganda cartoon.
Please guide Goepfels-chan, who knows nothing about animation, through her distress and on to a good ending.
There's also a Super Good Ending and a Worst Ending available
