### About This Game

Insomnis is a first-person psychological horror game, developed by Path Games. Insomnis challenges the player to uncover horrific clues and use them to solve different puzzles related to different character's dark past. Influenced by the environment and the narrative of great horror classics, Insomnis take us to explore oneiric atmosphere as a way to advance.

Combats are not present in Insomnis. It is through exploration and resolution of different riddles how it makes you wander across the different rooms looking for items that can help you advance in the game. And this is what becomes an identity of the game.

Insomnis was created to surprise its players with its gloomy environment

The objective of this game is to create stressful situations without drawing on easy jumpscare to obtain a more elaborated and different horror style, achieved to a great extent by the atmosphere around us. ¡Escape from yourself!
